8"88" Nettuno

*I Colori più profondi ed intensi li troveremo lontano dal Sole.
Aurora continua il suo percorso attraverso il Sistema Solare,
ispirandosi dallo splendore dei Pianeti.*

*We will find the deepest and most beautiful shades far from the Sun.
Aurora continues its journey through the Solar System,
inspired by the splendor of the Planets.*

8"88" Nettuno

The background of the advertisement is a deep blue space scene. A large, glowing blue planet with prominent rings, resembling Saturn, is the central focus. A fountain pen, the Aurora 8"88" Nettuno, is positioned diagonally across the frame. The pen's barrel is a vibrant blue with a textured, possibly carbon fiber or similar material, and features a silver-colored band near the nib. The nib is also glowing blue. The overall lighting is ethereal, with soft glows and star-like points of light scattered throughout the dark blue space.
