EYE OF SAURON

The makers of the world's most magical writing instruments salute one of history's best-loved movie franchises with the open-edition Eye of Sauron.

Available in fountain pen, rollerball and ballpoint modes, a handmade, modern design reflects the New Line Cinema trilogy's profound impact on the 21st century's pop-cultural landscape.

The dark terrain of Mordor is represented by intense blackness: a smooth, all-over satin-matte finish is underscored by black ruthenium-coated hardware of stainless steel and brass.

A replica One Ring made from gold-plated brass can be removed from the cap and used as a good-luck charm. The Dark Lord's fiery Tengwar inscription is etched into its surface.

Sauron's all-seeing eye never sleeps. Applied to the pocket-clip in orange Super-LumiNova® enamel, it absorbs energy through the day to glow through the night.

SELLING POINTS

The open-edition Eye of Sauron writing collection has been handmade in Italy under the guidance of New Line Cinema.

The franchise's iconic logo is etched into the top of the cap.

A commemorative display case uses laminated parchment paper and gold foil to reproduce the ancient cartography of Middle-earth and the Tengwar legend forged into the One Ring.

SIR PETER JACKSON'S blockbuster adaptation of *The Lord of the Rings* (2001-03) is a giant of the fantasy genre, with box-office receipts of \$3 billion and more than 100 million home copies sold.

A blockbuster television series based on J.R.R. Tolkien's elaborate universe is currently in production.

Few details are currently known, but fan speculation is rife.
